SSLC
87%

Skills

- HTML
- CSS
- JavaScript
- Bootstrap
- React
- Node.js
- Express.js
- MongoDB
- Python
- Git and Github
- AutoCAD

Project

- **Ignition Cut-off using Alcohol Detector to prevent from Accident**
Main source of this project is to reduce the death rates throughout the world. We used smell sensor to receive the odour of the driver which helps to stop the vehicle. We used programming to calculate the odour of the person which is prescribed. If the odour is higher, the programme will help to cut-off the engine while the driver is trying to ignite the vehicle.

Web Projects

- **RENT IT - WEBSITE**
Concept based on renting a car using website ,which is responsive on all screen ratio's.It is an multipage website using HTML,CSS & JavaScript
- **DEAL YOUR DESTINY (REACT)**
A cardealer application with the single page created using React. More responsive and pinch of animation used.
- **HOUSE - BROKER (REACT)**
Concept based on buying and renting the buildings.It is responsive in all screen ratio's which will provide you a good design.
- **FOODOZER - WEBSITE**
I have created food website with multiple carousel to attract the customers and which is also responsive in all screen ratio's
- **SMARTI - WEBSITE**
It is based on smart watch website with multiple carousel and more responsive in nature.
- **MASJID-MECCA**
Use of template, I have created this website with basics of HTML and css which is more attractive in design.

Experience

- **Wipro Infrastructure Engineering** 07/06/2022 - 08/07/2023
